A perfect day for a match. Sunny, with a high of 76 degrees.

The stages were very creative as decided collectively. Even so, there were three clean matches.

We also had a first for us, as all nine shooters won their respective classes. The moral of this story - choose your class wisely.

Lucky joined us from upper Maryland as did Tug Hill from the Boonies.

Kiddo took a day of leave, while Cash just skipped out of work.

Plug and Wichita came to the match in a drop-top dream machine.

Will be back at the same time and place in October.
